Our service

We provide you with the subcontractors, comprehensive advice, service, and support - so you can focus on your core business.

Our process

Fast. Competently. Flexible.

You define the requirements, we choose the subcontractor - tailored to your needs. The teams work independently in your production facility or on your construction project.

Our subcontractors

As diverse as our markets.

From small businesses to large companies with more than 200 employees. There are teams available for all trades or even cross-functional overall teams who work on the project, from the beginning to the handover.

Your advantages

Worldwide Network

Our success is based on that of our customers!

- Experienced teams
- Worldwide availability
- Approved contracts
- Continuous dialogue and customer feedback
- Open communication. Flexibility. Quality.

Our markets

Successful around the globe!

Subcontractors for industry and trade. Subcontractors for worldwide projects. Our subcontractors are as diverse as our markets.

- Plant construction
- Construction & Raw Materials industry
- Apparatus
- Chemical & Petrochemical industry
- Automotive industry
- Fertilizer & Building materials • EMSR technology
- Energy industry, Power plants & recycling
- Building and industrial installations
- Industrial Service • Clinics, Hospitals & Medical technology
- Logistics areas in all industries
- Mechanical engineering
- Pulp and Paper industry
- Safety technology
- Steel and Aluminum industry
- Process engineering

Successful around
the globe!

Industry sectors

Our subcontractors supply well-equipped and well-rehearsed teams in various sizes and work independently on your construction project.

01 ELECTRICAL

The range of services offered by our subcontractors in the field of electrics ranges from industrial electrics and control cabinet construction, energy and building technology to the installation of photovoltaic systems.

02 INDUSTRY

For years, 70% of our orders have been in the industrial sector. From plant engineering and mechanical engineering through to industrial electrics and EMSR technology and automation, conveyor, and process technology.

03 ASSEMBLY

Our subcontractors include specialists in the production and assembly of steel structures, mechanical and plant engineering, and in the field of roofing and plumbing.

04 HVAC AND SANITARY/WELDING

From gas, water, heating, refrigeration, air conditioning and ventilation technology to piping construction and insulation work - the range of services offered by our subcontractors is enormous.

References

Satisfied customers are proof of the highest quality.

We measure our success by the satisfaction of our customers - there is better quality proof.

- EUROCLIMA GmbH (Sillian, AT)
- BILFINGER (Munich, GER)
- R. SCHEUCHL (Landshut, GER)
- SAR GmbH (Dingolfing, GER)

Robotics & Conveyor Technology

Robotics

Electrical installations and assembly works in the robotic automation of automobile production lines and other processes.

Materials handling

Electrical installations and assembly work on conveyor belts, and in the automation of warehouses and production lines.

Electrical

Control cabinet construction

Manufacturing and assembly of control cabinets, wiring of control elements, PLC programming.

Electrical installations

Electrical installations and assembly work from safety technology and fire alarm systems including EMSR installation.

Industrial plants

Plant & Machine engineering

Assembly of new plants, relocation of complete plants and industrial high bay storage

Construction of high level racks

HVAC, sanitary & welding

Successful projects

HVAC, sanitary & welding, electrical, assembly
