## REFERENCE

## MO82

## Project title

MO82

## Location

Munich

## Number of skilled workers

15

## Activities

Installation of heating, ventilation and sanitary facilities.

The MO82 project has created a multifaceted building complex, including a hotel, a student apartment complex, office space and a boarding house. For a building project of this size, reliable and competent companies from a wide range of industries are indispensable. A well-rehearsed team from Subauftrag.com was also able to participate in this project. The scope of work included the installation of the heating, ventilation and sanitary facilities.

# Trivago

**Projekt title**

Trivago Headquarter Düsseldorf

**Location**

Düsseldorf

**Number of skilled workers**

16

**Activities**

Sanitary installations, laying and screwing of waste water pipes

For the new headquarters of the online giant Trivago, the world's largest hotel search engine, Subauftrag.com procured qualified subcontractors. The contract for our subcontractors started in June 2017. 2 large teams, including site managers, were deployed over an area of 30,000 m<sup>2</sup>. The skilled workers carried out sanitary installations of water pipes, wash basins, toilet cores, urinal racks and drains. In addition, dirty water pipes (rainwater pipes and dirt pipes) were laid and screwed together.

**Project title**

Adidas WOS Arena

**Location**

Herzogenaurach

**Number of skilled workers**

2

**Activities**

Installation work in a refrigeration and heating plant, pipe installation, including brackets, connection of containers, heat exchangers, pumps, etc.

Adidas AG expanded its headquarters, among other things, with a new office building that is unique in its form and construction worldwide. For various assembly works in a refrigeration and heating centre, 2 HVAC-assemblers were arranged by Subauftrag.com. The exact scope of work included the installation of piping, connection of heat exchangers, pumps, etc.

## REFERENCE

# Eurofins

**Project title**

Eurofins Hamburg

**Location**

Hamburg

**Number of skilled workers**

4 MAG/E welders, 4 jigs

**Activities**

Welding work, roof structure reinforcement

Within the global production network of Mercedes-Benz Cars, the plant in Rastatt is responsible for the global control of production as well as for quality and supplier management. A total of 8 workers (4 certified MAG/E welders and 4 fitters) were employed here, who were subcontracted. The activities included welding work, such as welding TT girders with gusset plates and reinforcing plates.
